

Kovobel is engaged in the production of storage containers and poultry farm technology. The company is firmly establishing itself on both the domestic and European markets. Kovobel places great emphasis on individual approach to customers, high quality standards and business ethics. The co-operative has won several awards, Most successful client of Czech Trade in DHL UNICREDIT Export prize 2011, and especially the award Czech Top 100 in 2011 in the manufacturing co-operative sector category.

Kovobel uses state-of-the-art technology which makes work faster and more effective. The M-Files document management system enables fast search, sorting and versioning of documents. M-Files fully replace the network components originally used and control access to documents in the sales area (offers, invoices, contracts, etc.), marketing (leaflets, marketing materials, etc.), design (assembly drawings, instructions, etc.) and administration (plans, guidelines, etc.). The M-Files document management system is linked to the Helios Orange enterprise software system.

M-Files in KOVOBEL manufacturing co-operative
